

**“Student parliaments
for an active and creative
Europe”**

project **SPACE 3**

3.-.10.5.2024

Let's learn together and have fun!

Funded by
the European Union

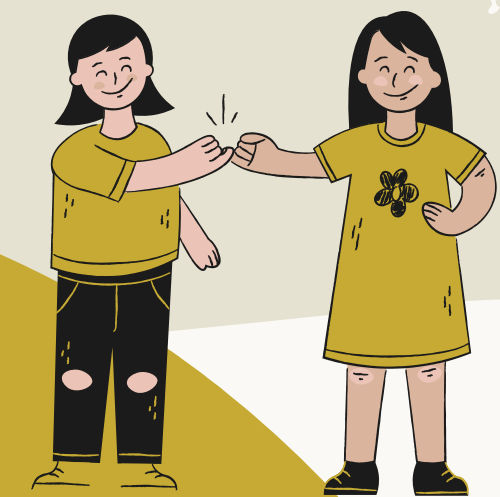

Hello, everyone!

Regional Youth Centre (RYC) is an organization devoted to working with young people in the entire Trenčín region. For the last 14 years, it has organized many activities in the youth field for non-governmental organizations, training for young people and youth workers: coordinators of student councils and youth work, etc. RYC supports the development of quality youth work through many international projects and other modalities in partnership with schools, NGOs, municipalities, and other subjects in the youth field. It aims to map the needs of young people not only in the Trenčín region, and to offer, organize, and promote activities of their interest and benefit.

It works side by side with student parliaments from secondary schools and universities, and 2015 also with student parliaments from primary schools, in partnership with the municipalities in our region (16 cities).

Erasmus+
Enriching lives, opening minds.

SPACE 3

“Student parliaments for an active and creative Europe”

Project SPACE is based on nonformal education.
Its youth exchange is supported by Erasmus + program.

7 days + 1 travel day
34 participants

Aim of the project

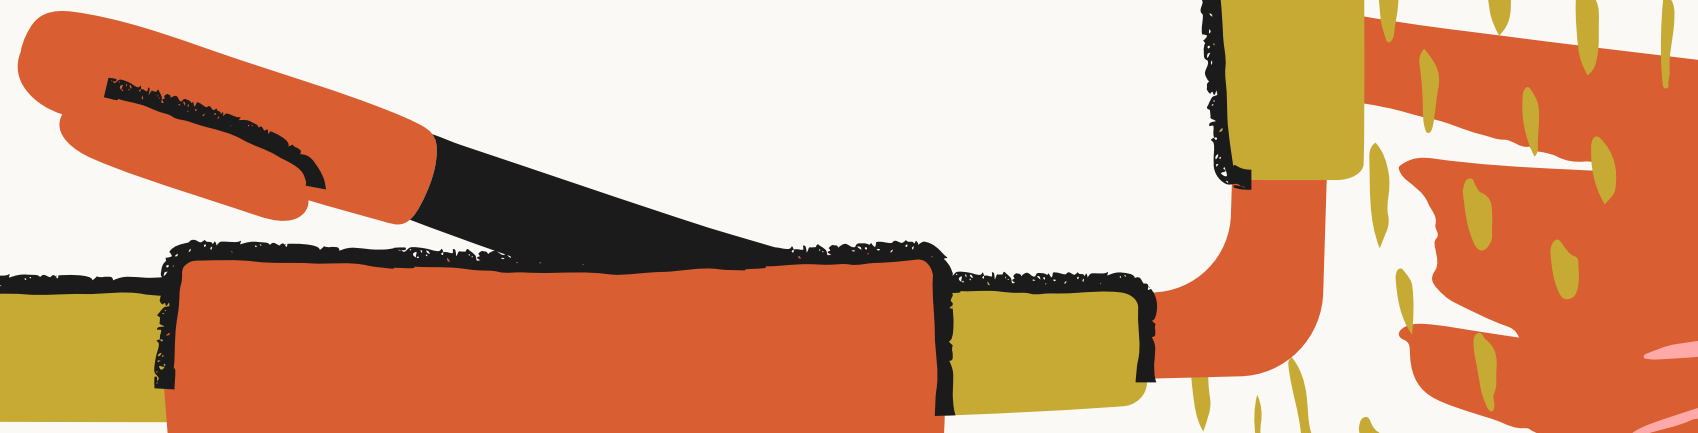

The aim of the project is to raise awareness about the democratic system and how it reflects on the activities of student parliaments and consequently increase active youth participation in the lives of their communities. Participants will share their experiences and ideas with other young people from other European countries regarding democracy, youth active participation, and the work of student parliaments.

Learning outcomes

During the project, participants will learn more about student parliaments and will also develop some of their soft skills useful for work in the parliaments. The concrete objectives are for students to exchange experience and good practice in this field, and also experience hands-on how to deal with conflicts, manage groups, give tasks, motivate others, prepare and take part in a discussion with regional representatives, prepare a presentation, etc.

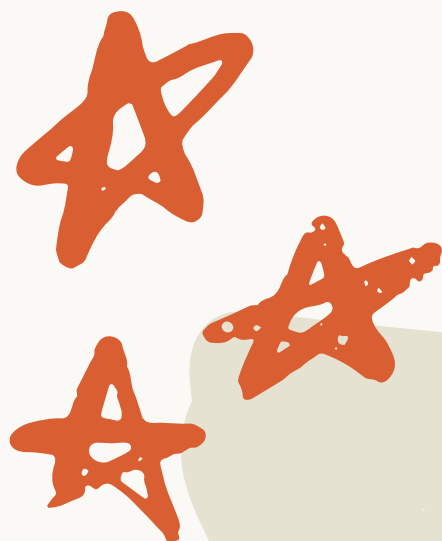

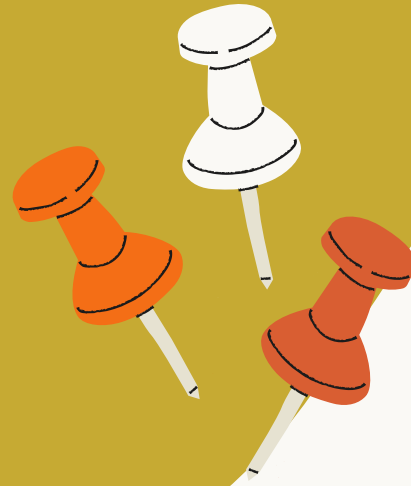

Objectives & Rules

Objectives

The purpose of this learning is so that students not only understand the basic concepts but also understand the practical benefits so that they will be more effective

Rules

- Participation on both activities
- Respect
- Active participation
